Case 1. Unlawful censorship by Microsoft subsidiary Github.

Dr. Andrej Poleev, Feb 17, 2023
Account Name: poleev

Someone from admins of github has flagged my profile and hidden it from the public. This is unlawful censorship and I demand to undo this unlawful action. Blocks, removing my posts, and every hindrance of my activity are illegal, and must be prevented in the future.

Dr. Andrej Poleev

GitHub Developer Support <developer@githubsupport.com>

To: Dr. Andrej Poleev <andrejpoleev@yahoo.com>

Your request (Ticket 2019114) has been updated.

Hello,

Thanks for reaching out. Your account has been flagged following reports that its content or activity may have been in violation of the following prohibition found in our Acceptable Use Policies:

We do not allow content or activity on GitHub that:

is off-topic, or interacts with platform features in a way that significantly or repeatedly disrupts the experience of other users

You can read more about our prohibition against disrupting the experience of other users here:

GitHub Disruptive Conduct. Specifically, the content or activity that was reported included posting the following off-topic and disruptive content in GitHub Community Discussions: Invitation #47212

In addition to this off-topic comment, we have been informed that multiple GitHub employees have received emails from you inquiring about the account flag. Please note that these emails to GitHub employees also make up a violation of our disruptive conduct policy. Any questions or concerns you have about this, or any other issue, should be submitted via our official support channel, and it is never permissible to email GitHub employees directly with these concerns.

If you agree to abide by our Terms of Service going forward, please reply to this email and provide us more information on how you hope to use GitHub in the future. At that time we will continue our review of your request for reinstatement.

Please let us know if you have any questions or concerns about this notice.

Regards,

GitHub Trust & Safety

Case 2. Selling misleading and false content.

From: Journal Enzymes ISSN 1867-3317 <mail@enzymes.at> 26.01.2023

To: lawenforcement@apple.com, media.help@apple.com, khuguet@apple.com,

Referring to the New Testament, edited and published by me, I prohibit its other editions ever published in the Russian language due to their wrongness. This prohibition includes the unauthorized distribution of the print or non-print editions of the New Testament, all of which must be excluded from circulation, presentation, and distribution. The aim and purpose of these measures is solely to ensure the scientific accuracy of the translation of the Greek text of the New Testament into Russian language, and anyone who wants to make a contribution to the common task must have proven qualification before participating in the editorial work.

Therefore, I obligate all publishers and presenters of the New Testament in Russian to obtain an authorization from me in order to print or to distribute it as a non-print resource.

Case 5. Selling misleading and false content.

„Errors are the greatest obstacles to the progress of science; to correct such errors is of more practical value than to achieve new knowledge,“ asserted Eugen Bleuler. Basic error of several prevailing classification schemes of pathological conditions, as for example ICD-10, lies in confusing and mixing symptoms with diseases, what makes them unscientific. Considering the need to bring order into the chaos and light into terminological obscurity, I introduce the Causal classification of diseases originating from the notion of bodily wholeness and causality of its loss.

A. Poleev. Causal classification of diseases. Enzymes, 2020.
